Director, DDS&T Career Development Course

SUBJECT: Appreciation for Support

1. I would like to thank you and your staff for your support of CDC-22. Your talk and later the sharing of dinner with us during our first week were greatly appreciated by all class members. Such visits serve to personify the importance which DDS&T places on the course.

2. The two days at FBIS were an education for all who had never served in your office. Future office plans proved as informative for FBIS class members as for the rest of the class. For us hardware jockeys, it showed what could be done with low budgets and highly disciplined and uniquely skilled personnel. By the way, [REDACTED] gave to class members a translated paper which provided answers we could not get from one of the DDS&T offices (the marvels of Open Sources).

3. Again, thanks for your continuing support.
